

Career Overview

I graduated with a MA (Hons) in Economics and International Relations from the University of Aberdeen in 2016 and after a year in Medical Market Research, joined NHS Tayside in 2017, as part of NHS Education for Scotland's Management Training Scheme. Since then I've worked on different projects within NHS Tayside to improve patients' access to health. I've also spent a 3 month secondment at the United Nation's Population Fund working on global projects in the fight against "Violence against Women and Girls" in 2018.

I've joined the Improvement Team in September 2019 and am currently involved in developing and implementing a new referral guidance system for NHS Tayside.
